

## Lembar Kerja Responsi 4 Mata Kuliah KOM 401 Analisis Algoritme

Semester Ganjil Tahun Akademik 2020/2021

## **Asisten Praktikum:**

- 1. Alfian Hamam Akbar
- 2. Hilmi Farhan Ramadhani

## A. Iteratif Sederhana

Berikut ini terdapat potongan program yang memuat struktur perulangan iteratif sederhana. Tentukan kompleksitas big-Oh dari setiap potongan program tersebut.

No	Potongan Program	Big-Oh
1	<pre>int n; scanf("%d", &amp;n); for(int i = n; i &gt; 0; i=i/2) {       // Suatu pernyataan konstan O(1)       break; }</pre>	O(1)
2	<pre>for(int i = 1; i &lt; n; i=i*2) {     // Suatu pernyataan konstan O(1) }</pre>	O(log(n))
3	<pre>int n; scanf("%d", &amp;n); while (n &gt; 0) {     n = n / 2; }</pre>	O(log(n))
4	<pre>int n; scanf("%d", &amp;n); for(i = 0; i &lt; sqrt(n); i++) {</pre>	O(√n)

```
5
     for (int i = n; i > 1; i=i--) {
         printf("%d", &i);
                                                                    O(n)
     for(int i = 2; i < n; i=pow(i, 2)){
6
          // Suatu pernyataan konstan O(1)
                                                                    O(\log(\log(n)))
7
     int n;
     scanf("%d", &n);
     for (i = 1; i < sqrt(n); i = i*2) {
                                                                    O(\log(\sqrt{n}))
         // Suatu pernyataan konstan O(1)
6
     int n;
     scanf("%d", &n);
     for(i = 2; i < n; i = i*2){
                                                                    O(n \log n)
          // Suatu pernyataan konstan O(n)
9
     int n;
     scanf("%d", &n);
     for(i = 0; i < n+n+n; i = i++){
                                                                    O(n^3)
           // Suatu pernyataan konstan O(n^2)
10
     int n;
     scanf("%d", &n);
     for(i = 0; i < n*n; i = i++){
                                                                    O(n^2)
           // Suatu pernyataan konstan O(1)
```

## B. Iteratif Majemuk

Berikut ini terdapat potongan program yang memuat struktur perulangan iteratif majemuk. Tentukan kompleksitas big-Oh dari setiap potongan program tersebut.

No	Potongan Program	Big-Oh
1	<pre>for (int i=0; i<n; (int="" for="" i++)="" j="0;" j++)="" j<n;="" pre="" printf("*");="" {="" }="" }<=""></n;></pre>	O (n <sup>2</sup> )
2	<pre>for (int i=0; i<n; (int="" for="" i++)="" j="0;" j++)="" j<sqrt(n);="" konstan="" o(1)="" pernyataan="" pre="" suatu="" {="" }="" }<=""></n;></pre>	$O(n\sqrt{n})$
3	<pre>int n; int count = 0; scanf("%d", &amp;n); for(int i = 0; i &lt; n; i++){    while(c &lt; i){       sum = sum + count;       count++;    } }</pre>	O(n)
4	<pre>int n; int c = 0; scanf("%d", &amp;n); for(int i = 0; i &lt; n; i++){     c = 0;     while(c &lt; i){         sum = sum + c;         c++;     } }</pre>	O(n²)
